Please be aware that shipping is **entirely at your own risk**. This means that it is your responsibility to ensure that the packaging is sufficient for the species. We will do our very best to take care of the species while these are at our facilities. We will not take any responsibility for illness, injuries or death of the species during the stay at our facilities, during transport or after arrival at the place of destination. We are not liable for seizure of any species in the country of import after legal export. Should any damage occur during transit, there is no cover for loss or damage, compensation, reimbursement or refund. **Shipping these species renders your entire consignment uninsurable**. If the recipient wishes to have the species insured, these species need to be insured by the recipient himself, as unfortunately we cannot insure third-party species for the recipient. The recipient is also responsible for all additional import charges and taxes. By sending this form to info@dutchdragonimport.com the recipient confirms to accept all terms and conditions.
